

Prakash Mohit

AI Agent Engineer (Specialising in Agent Runtime & Tool Orchestration)

Delhi, India | [9151511824](tel:9151511824) | 24f2001100@ds.study.iitm.ac.in

Summary

AI Engineer specializing in agent runtime systems, planning loops, memory architecture, and tool orchestration. Built custom multi-step autonomous agents from scratch without frameworks. Focused on reliable agent execution, error recovery, and reasoning quality.

Experience

(Self-Directed) **September 2025 - Present**
Independent AI Engineer

- Building agent architectures and runtime systems
- Implementing memory, planning, and tool pipelines
- Running evaluations on reasoning, stability, and multi-step tasks
- Publishing projects on GitHub with documentation

(Self-Directed) **Jan 2025 - Present**
Web Developer

Built personal projects and practiced modern frameworks.

Education

IIT MADRAS **May 2024 - Present**
Data Science
8.13 CGPA
Bachelor of Science

Maharishi Vidya Mandir **2022**
CBSE Board
80%
12th / Senior Secondary

Maharishi Vidya Mandir **2020**
CBSE Board
91 %
10th / Secondary

Projects

KRISHNOS-AI **November 2025**
Self-built LLM

Created a custom LLM from scratch using research papers and architectural methods inspired by DeepSeek LLM. Implemented tokenizer design, model training pipeline, and core architecture layers.

Room Match **October 2025**
Full-Stack AI App

AI-Powered Full-Stack Application Developed a room-matching platform that onboards female users, captures preferences, and allocates rooms using AI-based matching algorithms. Designed front-end, backend, and AI integration for end-to-end functionality.

Skills

Python

Pandas, pytorch, keras, matplotlib, numpy, scikit-learn, tensorflow

DSA

HTML , CSS & Javascript

AI and ML

LLM architectures, Neural Networks, Optimizers

Other Skills

Full stack web development, Unreal Engine, 3D Modelling
